

Joining the dots: A holistic approach for CKD diagnosis and management

PRESENTERS INCLUDE:

DR WALAA W.M. SAWEIRS

Consultant Nephrologist (Te Tai Tokerau Renal Service) and Chair Early CKD Models of Care (Renal National Clinical Network)

DR DIANNE DAVIS

General Practitioner, HealthPathways Clinical Editor, Northland

**TUESDAY
17 JUNE,
7.00pm - 8.00pm**

Join us to explore Chronic Kidney Disease (CKD) within the broader context of overall patient health. We'll discuss community-focused strategies, supported by a national model of care and CKD pathway.

Session focus:

- Proactive identification of those at risk
- Understanding CKD within the individual patient context
- A holistic approach for CKD management:
 - Considering CKD as part of the wider CKM (cardiac, kidney, metabolic) syndrome
 - Supporting good outcomes with a three-pronged approach across lifestyle, education, and medication
- Pathway update

This session is designed for general practitioners and nurse practitioners. It will also be of interest to all community providers supporting patients with CKD including practice nurses, health coaches, health improvement practitioners, and pharmacists.

Format

A presentation followed by moderated Q&A. This Zoom webinar session will be recorded for those unable to attend, and the recording shared on HealthPathways.

Submit questions prior to the webinar via the Comments & Questions field in the registration form.
