Research Ethics Approval and Data Protection statement

My name is Ranjeeta Singh, a doctoral researcher at Massey University. This research is exploring the impact of psychological and communicative resilience amongst doctors and nurses post-COVID and the impact these have on practice culture and identity.

This study has ethics approval, 4000028349, and has been assessed as low risk in nature. All data collection, handling, and storage will comply with data protection, privacy, and confidentiality requirements at all times.

The following survey will take approximately 20mins to complete. Your participation in this study is greatly appreciated. You can withdraw from participating at any time. Results are anonymously submitted to the Survey Monkey platform.

If you would like the overall findings to be shared with you, please provide your email address at the end of the survey.

If you have any concerns or questions I am happy to help at any time, my email is R.Singh2@massey.ac.nz, or alternatively my supervisor Professor Stephen Croucher can be contacted at S.Croucher@massey.ac.nz
