

## Appendix 1

### Patient Prompt for Bowel Screening:

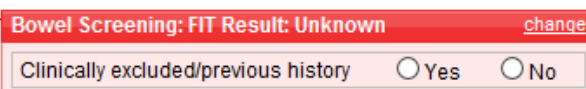

#### Notes to Consider / Eligibility

- In the first year of a DHB's two - year cycle, the National Bowel Screening Programme (NBSP) invites everyone who is between the ages of 60-74yrs with a birth date that falls on an **EVEN** number. The following year, those with a birth date that falls on an **ODD** number will be sent a FIT kit.
- Anyone turning 75yrs will also be sent a FIT kit in the first year.
- Māori, Pacifica and rural dep: 9 & 10 are Priority populations for NBSP. Early requests for a FIT kit can be made to the National Coordination Centre by calling 0800 924 432.

The NBSP is referred to as **BOWEL SCREENING**:

It will first show as the following if:

1. The Patient is eligible
2. The patient has not yet completed a FIT test "Unknown" or
3. The patient has completed a FIT test and is being seen by the GP prior to the test result is received.

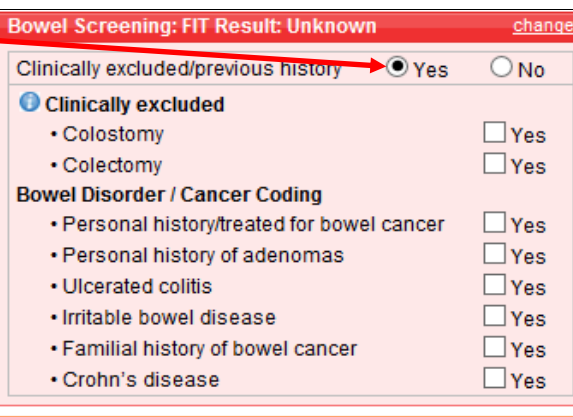

#### Clinically excluded / Previous history

Choosing 'Yes' will allow the drop box to appear. If patient has been coded for previous history conditions this will automatically tick **Yes**.

Patients who are clinically excluded - the prompt **will not** appear.

Patients with Bowel disorder / Cancer Coding if ticked on a surveillance programme the prompt will **no longer** appear.

#### Choosing 'No'

To **Clinically excluded / Previous history** will show the following drop box to select from.

**Patient Declined NBSP** is yes – the prompt will first turn **orange** and then turn **red** after **2 years**

The example demonstrates a **negative FIT result** received in patient record followed by the date it was entered.

Should a FIT result return “**positive**” the prompt will extend with the following options available.

**Note to consider: Discussion with patient on next steps.**

Colonoscopy public? Or private?  
Is your patient suitable for a colonoscopy?

**Bowel: FIT Result: positive 06/07/2021** [change](#)

FIT screening result received: positive 06/07/2021	
Negative	<input type="radio"/> Yes <input checked="" type="radio"/> No
Positive	<input checked="" type="radio"/> Yes <input type="radio"/> No
Patient Referred for FIT Positive?	<input type="radio"/> Yes <input type="radio"/> No
Patient Declined Colonoscopy?	<input type="radio"/> Yes <input type="radio"/> No

- 1. Patient Referred for FIT Positive? Yes**  
In BPAC E-referral search bar type **FIT** to display correct referral. It is important to refer participants to the hospital on the correct form.
- It is just as important to use the same referral if the participant wants to be seen **PRIVATELY** this detail will also be passed onto the local Bowel Service.
