

1. Login PMS and search a patient who will be referred.
2. In the right corner, click “Service Eligibility” > “Cervical Screening Service”.

3. If below window pops up, please click “Yes” if you would like to add a contact information. If not, just click “No” to move on.

4. Please fill in the mandatory fields highlighted with a red star, such as “Referral Source”. And click “Next”.

Submit Referral

7. After submission, you can find your referral against this patient by clicking “Referrals” on the left menu.

The screenshot displays a medical software interface. At the top, there is a navigation bar with links: Home, Patient Queues, Appointment, Patients, Configurations, Administration, Report, and Help. Below this is a patient information header showing a profile icon, name, and various status indicators. The main content area is divided into three sections: Alerts (with an 'Include inactive' checkbox), Allergies, and Problem List (containing 'Long Term Diagnosis'). A toolbar with various icons is located below the main content area. On the left, a sidebar titled 'Patient Note Functions' lists various medical functions, with 'Referrals' highlighted in green. The 'Referrals' section is further divided into 'Referrals' and 'PHO Referrals' tabs. The 'Referrals' tab is active, showing a 'Specialist' search area with a warning: 'Please follow referrals made through this section as not all recipients may actively manage their inbox'. Below this is a search bar for 'Search Healthlink, Address Book and Health Point'. The 'History' section shows a table of referrals with columns: Date, Case No, Status, Referral Name, Subject, Target EDI, Referred To, Referred By, Type, HL-Status, and Action. The table contains one entry: 26-02-2024, SCR1921..., Pending Invoice..., Cervical S..., Cervical S..., CCR portal, CCR portal.
