

Video consults using Doxy.me

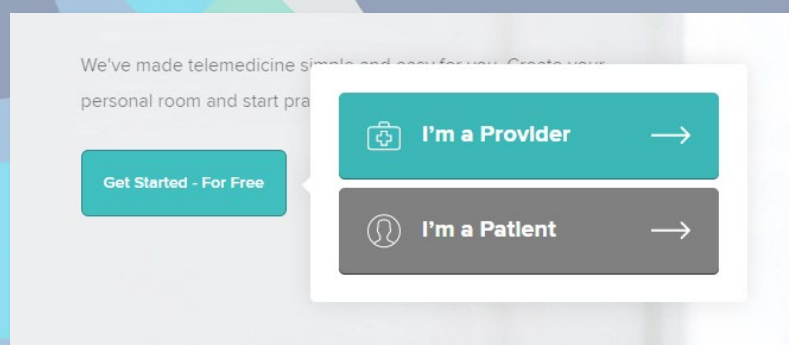

Video consultations allow your GP to see and speak to you

When your appointment has been booked your GP will send you a link to their virtual waiting room.

Near the time of their appointment you will need to go to www.doxy.me, which will take you to this welcome page.

Click on **get started** and **I'm a patient**.

Enter the link you have been sent by your GP and click **check in**.

This will take you to the GP virtual waiting room.

The GP will know you are there and connect to you call as soon as they can.
