

A new way to connect your mobile

As a member of the Pinnacle network, you now have access to a Spark Health mobile plan created specifically for primary care. Whether you need a personal plan or mobile services for your entire practice, we've got you covered.

40GB Spark Health Endless Mobile Plan

\$21.85 per month
incl GST (or \$19.00 excl GST)

Endless data

40GB data at max speed. Endless at reduced speeds.*

Unlimited minutes and SMS

To NZ and Australian numbers.**

Spark Voicemail App

Endless Hotspot***

* Speeds reduce to a maximum of 1.2 Mbps, this will impact your experience.

** Unlimited minutes are to any NZ and Australian mobile and landline numbers. Includes person-to-person SMS messages to NZ and Australian numbers only. Excludes MMS (e.g. picture messaging) and non-data video calling.

*** Use of your Endless Hotspot counts towards your max speed data allocation.

Key benefits

- **Keep your existing number.**
- **Flexible sign-up options** – join as a practice and pay for multiple staff on the one business account, or pay via your own personal Spark account.
- **Fast and simple onboarding.**

Who is eligible?

- You must have received this offer directly from Pinnacle.
- You'll need to provide your practice's HPI ORG ID number, or if you are a direct current employee of Pinnacle, you'll need to supply a copy of your company ID or work email address.

Need a new device?

- Spark Health can also help if you need a new mobile device. Choose from our large range of mobile devices with interest-free payment options.

Things you need to know

- Plans are pay-monthly.
- One plan per eligible person. This offer is not transferable.
- When you sign up for this plan, you'll be able to stay on it for a minimum of 12 months. After that, Spark Health will check periodically to make sure you're still part of the Pinnacle team. If you're no longer eligible, you may be moved to a similarly priced plan that may have different allocations, or you can select your own. You will not lose your number.
- Full terms apply. You can view them [here](#).
