

# Suspected Skin Cancer (SSC)

Claiming for the above contract is now via a MedTech Advanced Form.

Please follow the process below to set up claiming in MedTech

1. Set up SSC service codes x 4 as below – see One Point Lesson

Code	Description	Amount
SSCE	Excision Basic	\$287.50
SSCEA	Excision Advanced	\$517.50
SSCE2	Subsequent Basic	\$143.75
SSCEA2	Subsequent Advanced	\$258.75

2. Set up account holder for claims to be generated to – you will already have this set up for previous manual claiming
3. Instal Advanced Form – see One Point Lesson
4. Add the SSC service codes (x4) to each procedure in the Advanced Form
  - > Click on the Fields tab
  - > Double click to open the row Procedure (has the \$ sign)
  - > Click on the Values tab
  - > Double click to open each value and add the service codes as created above ensuring the \$ amounts are correct (there should be 4 values to check)
  - > Click OK x 2 to update and save
  
  - > In the Actions tab ensure the Healthlink pathway is correct (match it with another advanced form eg. B4S)
  
  - > In the Actions tab ensure the account holder you created at number 3 is in the advanced form
