

Cervical Screening History Summary

Quick Reference Guide

Indici

Released February 2025

Cervical Screening Summaries Integration

To give healthcare providers timely access to patients' Cervical Screening Summaries and remove a traditional barrier to opportunistic and planned screening events, we have implemented a new integration which enables users to pull summaries directly from the National Screening Solution's Cervical Screening Register.

Configuring Cervical Screening Summary Integration

To configure the Cervical Screening Summary Integration:

The configuration of the National Cervical Screening Program section can be managed from the backend at the practice level.

Setting Access Permissions

Users also need to be given access in order to retrieve the patient's Cervical Screening Summary. To manage access:

1. Go to Configurations > User Management > Access Rights
2. Expand Patient Consult in the very left-hand column and mark the checkboxes next to National Cervical Screening Program for the relevant user roles:

- Patient Consult	Section	<input checked="" type="checkbox"/>									
+ National Cervical Screening Program	Screen	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

3. Click Save

Accessing a Patient's Cervical Screening Summary

There are several places throughout the system where you can access a patient's Cervical Screening Summary. **Please note, a valid NHI must be recorded for the patient within their profile as the integration API uses NHI to locate patients within the National Screening Register.**

Consult Toolbar

An NCSP icon will appear in the Consult Toolbar if the integration has been enabled. You can click it to see and select available documents within the Register:

For any available documents, you can either download or view them by clicking the respective icons in the Actions column:

National Cervical Screening Summary			
Attachments		History	
Document Name	Created Date	Actions	
National Cervical Screening Programme - screening summary as at 18-02-2025 19:26	18/02/2025 11:26:35	 	

Clicking the Download button will open a popup window. If you prefer not to display the NCSP document on the patient portal, please check the 'Do not show on Portal' checkbox.

Download

You can also view the history of screening summaries for this patient by clicking the **History** tab:

National Cervical Screening Summary					
Attachments		History			
Document Name	Created Date	Provider Name	Action	Action At	
National Cervical Screening Programme - screening summary as at 18-02-2025 19:26	18/02/2025 03:26:35	[Redacted]	Viewed	18/02/2025 11:26:35	
National Cervical Screening Programme - screening summary as at 18-02-2025 19:23	18/02/2025 11:23:25	[Redacted]	Viewed	18/02/2025 11:23:24	

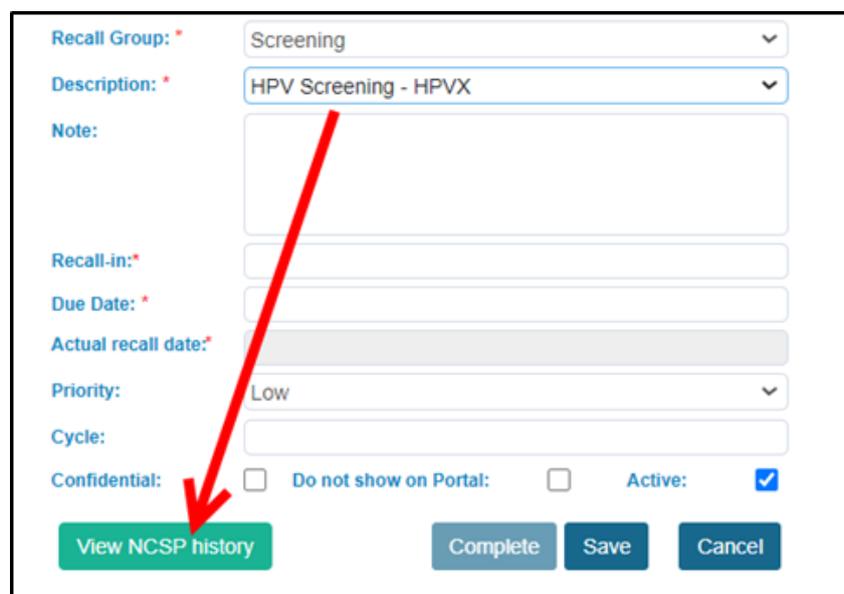

Inbox

If the Inbox item subject is HPV or Cytology then the View NCSP button will be available as per the below screenshot:

Recall

If a recall has a Description of HPV Screening, then the View NCSP History button will be displayed at the bottom of the Recall window:

Measurement

If a cervical smear measurement is selected, then the View NCSP button will be displayed at the bottom of the measurement window:

The screenshot shows a 'Main' section with three input fields: 'Provider:*' (a dropdown menu), 'Date:*' (a date picker), and 'Code:*' (a text field containing 'Cervical Smear (CX)'). Below these fields is a row of five buttons: 'View NCSP history' (highlighted with a red oval), 'Park', 'Save', 'Save and Add New', and 'Close'.
